Special Event - Saturday Night 5:00-6:00pm

LOG CABIN

Robyn Pandolph

Quilter, designer, author, teacher and mother, Robyn Pandolph came to the quilting world in a modest way. Like many of us, she grew up with a mother and grandmother who quilted and sewed, and she always had an interest in fabrics and design. Her life really changed in 1997 when she brought her Folk Art Wedding Quilt to the International Quilt Market in Houston. With her soft pastel colours and original folk art hand-appliqué, Robyn took the quilting world by storm. A successful fabric designer for over 10 years, Robyn is the quintessential creator of sophisticated floral romance.

For the special evening presentation, Robyn will be showing quilts from her latest fabric ranges: "Desired Things", "St Remy de Provence" and "Hope Cove".

There will be a Powerpoint presentation showing how Robyn became involved in the designing of fabrics and her journey up to the present time. There will also be an opportunity at the end of her presentation for "Questions & Answers", so please 'put on your thinking caps' and be prepared to "fire off" those probing questions!

* For more information about our Guest Speaker visit the Special Guest page on our website at www.aqm.net.au or visit Robyn's website www.robynepandolph.com
